

Passavant Energy & Environment GmbH plans and designs individual solutions for plant construction in the field of water and wastewater technology worldwide and supplies process, machine and automation technology as well as complete turnkey systems.

We are looking for a

Senior Draftsman (f/m/d)

to join our newly developing **Tunis Branch office** to draft the drawings of water and wastewater treatment plants.

Responsibilities

- Generate following drawing according to instructed detail and specifications:
 - PfD, P+I, Hydraulic Schemes
 - Plots plans, Civil Layout Drawings, Arrangement Drawings
 - Piping Layout, Isometrics, BoQ
 - One-Line Diagram, Cable Routing
 - Identifies and verifies specifications by examining engineering documents and performing calculations.
- Modifies drawings by studying changes, incorporation of equipment as procured, redrawing necessary components, using in-house documented procedures and drafting standards.
- Resolves discrepancies by collecting and analysing information and conferring with engineers.
- Maintains data base by entering data and completing backups for future efficient use of similar documents
- Shows a high independency in the preparation of the documents, based on his long experience in working in WTP and WWTP plant engineering.

Skills

- Good knowledge of AutoCAD – drafting as 2D and if possible 3D
- Minimum of 10 years of experience in WTP and WWTP design
- Fluent written and oral French and English
- Will possess excellent interpersonal & communication skills
- Analytical and conceptual thinking
- Ability to grasp quickly
- Should be a team player with a flexible approach
- Will have the ability to work under pressure and meet deadlines
- Intercultural open

If you feel addressed, please send us your application documents include cover letter, curriculum vitae and certificates in the English language.
